DETAILED ACTION

1. Applicant's affirmed election of Group I invention, claims 1-11, and 17-22, is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)). Therefore, in view of lack of traversal to restriction requirement set forth from Response to Restriction Requirement, the restriction set forth by the examiner is deemed proper and is therefore made Final.
2. In view of amendment filed January 3, 2006, claims 12-16 have been cancelled. Claims 1-11, 17-22 are pending.
3. In view of argument filed January 3, 2006, the 102 portion of the 102-3 rejection of Claims 1-11, 17-22 under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Stanley et al. (US 3,244,681) is withdrawn.

Art Unit: 1713

Claim Rejections - 35 USC § 103

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

The factual inquiries set forth in *Graham v. John Deere Co.*, 383 U.S. 1, 148 USPQ 459 (1966), that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.
 2. Ascertaining the differences between the prior art and the claims at issue.
 3. Resolving the level of ordinary skill in the pertinent art.
 4. Considering objective evidence present in the application indicating obviousness or nonobviousness.
5. Claims 1-11, 17-22 are rejected under 35 U.S.C. 103(a) as obvious over Stanley et al. (US 3,244,681).

Applicant's arguments filed January 3, 2006 have been fully considered but they are not persuasive. Applicants argue that the examiner has failed to address independent claim 7. The examiner disagrees because the examiner has already cited columns and lines of the related passages and figures that are relevant to the rejected claims, which are required by MPEP. Further, applicants have successfully addressed the issues that the examiner has set forth from the non-final office action of September 26, 2005.

Regarding claims 7-11, 17-22, these claims are very similar to claims 1-6 in inventive features, surface smoothness or roughness. Therefore, the examiner has a reasonable basis to group them together in a rejection. Further, applicants must recognize that although independent claim 7 is reciting two polymerization steps, claim 7 fails to contain any process limitations which may relate to stopping the first polymerization step before starting the second polymerization step, the examiner has a reasonable basis to treat that as a single polymerization step where the molecular weight of the polymer produced continues to increase from the first step to the second step. Therefore the rejection set forth is proper.

Conclusion

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
